

Christopher T. Garris, P.E. *Senior Supervising Geotechnical Engineer at Parsons Brinckerhoff*

Mr. Garris has over 21 years of experience as a consulting geotechnical engineer serving A/E/C, energy, water, transportation and other commercial and public sector clients in the intermountain west. In his career he has held responsibilities including Senior Supervising Geotechnical Engineer, Vice President of operations, Principal Geotechnical Consultant, and various project management and business development leadership roles. Mr. Garris is passionate about teaching and mentoring others in the field of geotechnical engineering and has taught PE Exam review courses and delivered presentations catered to architects, engineers, and contractors on a variety of geotechnical engineering topics. Mr. Garris is active in the A/E/C community and has participated and served in several leadership positions in professional organizations including ASCE, ACEC, APWA, EERI, SMPS, and others. He earned his B.S. and M.S. degrees in Civil Engineering from Brigham Young University in 1993.
